Work in progress

- **Díez-Rituerto, M.**, Gardeazabal, J., Iriberry, N., & Rey-Biel, P. (2026). Home bias in early labor location choices: Does university location matter? *Working paper available upon request*.

KNOWLEDGE TRANSFER

Public projects on strategic foresight

- **España ante el reto migratorio:** directed the Office's foresight study on migration and demographic change, bringing long-term demographic evidence into public and government debate.
- **HispanIA 2040:** developed Spain's first national foresight strategy on how AI can shape a better future for all and a stronger welfare state.

Consultancy projects

- **Macroeconomic Impact of the Climate Transition (European Commission):** assessed EU-wide climate adaptation investment needs across the main climate hazards and economic sectors under a common methodology, covering every Member State and the EU as a whole.
- **Economic Evaluation of Climate Adaptation Policies (Government of Malta):** quantified the micro- and macroeconomic impacts of climate change on the Maltese economy over the medium and long term, broken down by sector.

Policy engagement and representation

- **EU-wide Foresight Network (Sherpa level):** attended European Commission Sherpa meetings (senior officials).
- **OECD Global Foresight Community:** facilitated a workshop on weak signals & scenarios.
